NeuroRehabilitation Symposium in NSI 2012 on Friday 21.12.12 was attended by nearly 50 delegates it was important beginning for the IFNR as this is. First major symposia in any major neurological meeting in India.

The speakers were Dr.Nirmal Surya who address on current scenario on Neurorehabilitation in India followed by the Abhishek Shrivastava on SPINAL Cord Injury and lastly by Dr.Anupam Gupta from Bangalore on Traumatic Brain Injury.

The session was chair by Dr.Nirmal Surya , Dr Rajendra Prasad and Dr Rajkumar . Dr Prasad spoke for few minutes about initiation of Indian Head Injury Foundation and it's work in the field of neurorehab.

Question answer session was interactive and included discussion on role of stem cell in stroke rehabilitation , need of setting up neurorehab setups in the rural area, family based rehabilitation and rehab to be based on patients need rather than other features.

In the end prof Rajkumar summarized about this neglected field of neurosciences and thanks the speaker and the delegate for an interactive session. Dr Surya urged all those interested in this field to join the IFNR and gave forms to all.
